John Marshall, Maker of Optick Glasses to his Majesty.

At the Archimides in Ludgate-street, London, having by long Experience observed that abundance of Poor plus Sight is spoiled by using false Spectacles sold by Toy-men and other ignorant Persons. To prevent which, he doth let the Age on the Frame for every one to know the Sight they wear; for it often happens, that a person of 10 takes Spectacles, and as he grows old, the Spectacles he wears, whereas if the Age had been known by the Buyer, he would not have used them. By the use of true Spectacles the Sight is much preserved, so that many Persons of 45 or 50 Years of Age, can on occasion read without them. Also Reading Glasses and Spectacles of Rock Crystal as well as Glass, Microscopes, Telescopes, and all other Optick Glasses, made to the exactest Perfection by him who is the only Person approved of by the Royal Society for the Art of Glass Grinding.
